What People Are Saying

And the song is great fun! Best of luck. And thank you for sharing your beautifully realized efforts." **— Red Grammer**

"I presented the Wider Vision PowerPoint to our Assembly last weekend and it was very successful, so much so, it was suggested that it should be the first thing each new LSA should do, immediately after the election. I think this is a great testament to your efforts to produce something of inestimable value that will continue providing insights to many of us for a number years to come. Our ATC is now considering using some of the sections to aid in the deepening session in preparation for our IPG week. Thank you so much for providing this wonderful resource." **— Bob Russell**

"A WIDER VISION has amazingly connected the dots of the Five Year Plan's vast array of discourses and guidance and arranged them into tidy themes in such a way as to aid the memory and enhance lasting understanding! The clever layout of the visuals and their related text flow with such impact as to spark a dialog with the reader's perception. The companion study guide engages both independent thought and consultation so that we may more readily grasp the Plan's details and overall content, the grasp that is so indispensable in gaining the capacity to carry out the Plan's goals. Truly, these companion tools are to be kept within reach when deepening on the current Plan, individually and with the friends!" **— Aggie Toyoda**
