What People Are Saying

“It’s unbelievable how much the Bahá'í Faith Intro presentation touches the hearts of seekers. Eight people declared in the last 4 months after seeing that!” **— Jake and Ladan Jacobs**

"I don't know if the presentation could have gone any better! The World Religions class teacher and his students (we did 2 classes of about 30 each) loved the PowerPoint and I could tell that it was the perfect succession of concepts to help them grasp the true nature of the Faith. They had just finished studying all of the religions on your slides and this presentation on the Faith just happened to be the wrap-up of the semester--a perfect way to bring all the religions together. There wasn't even enough time to finish all of their questions! It was a response I think all Bahá'í youth alone in high school wish for. The instructor has asked us to come back next year and do it again. This was one of the most amazing teaching experiences I've ever had! Also I thought I'd let you know that one of the students from the class and his mother contacted the Baha'is and are getting set up to go to a fireside. SO EXCITING!" **— Charisse Johnson, Student**

"Bahá'í is a wonderful conclusion to our study of world faiths and, in a way, presents them with what might come in the future. We've looked at all these faiths of the past and yours is so forward oriented that it makes for a great end of semester presentation." **— Steve Deligan, World Religions Teacher, Juanita High School, Kirkland, WA**

“The building I recently moved into has a lot of intellectually curious people, so I recently gave an introductory presentation on the Faith using your PowerPoint. It was amazingly successful and several people there are now interested in a regular devotional program. I just took the initiative when the opportunity presented itself.” **— Roya Bauman**

"Yesterday morning, we went to the High School to give a brief presentation on the Bahá'í Faith to a group of 20 some students that were studying world religions. The high school teacher had asked the Bahá'ís to come. We presented the PowerPoint and left 25 minutes for questions. The students were very open minded and asked questions to the very last minute. The experience was just amazing…The teacher asked us to return next year.” **— Parisa Mardmediabadi**

"This PowerPoint program is by far the best and most dynamic multi-media teaching presentation I have seen. I shared it with a friend of mine who was interested in the Faith and immediately afterwards, he asked how he could get involved as a junior youth animator. It is a profound tool for teaching the Faith to an audience." **— Bradford Baker, University Student**

“I just downloaded the Bahá'í Intro PowerPoint. It is great! For our expansion phase, one of the areas of focus is going to be firesides…both one-on-one and open invite. I can’t share in words how much this resonates with the place where we are at in this neighborhood. Absolutely wonderful!!!” **— Jessica Kerr, CO**
