What People Are Saying

"WOW! I have struggled to explain my own beliefs about unity and diversity, but your PowerPoint articulates it perfectly. Not only is it powerful, but it's true! It's great to see an honest, positive presentation like this. I'd love to present it to my children. What a great way to share the beauty and the power of unity!!" **— SaraBecca Rogers, University Central Office Manager**

"Fantastic! We've got to get this out to the whole world, truly. My favorite part was the colored paper next to the different people...so simple yet so profound." **— Stacey Warmuth**

"'The Power of Unity' PowerPoint Fireside has such a clear and compelling message that transcends the bias and prejudice of far too many people. It is a must see for everyone, so world unity can be built upon and become a reality in our children's lifetime." **— Mark Warmuth**

"Fantastic new PowerPoint!! Inspiring, creative, beautiful, easy-to-use. Powerful, world-changing message! I'm excited to give a talk next week using this new PPT. We need more excellent field-tested materials like these, so keep producing!!" **— Jonathan Kalím Gottlieb-Shevin, M.D.**

"Excellent work! I like the demonstrations, and your notes! It was good to see some of the friends that I know in the slides. Here is my endorsement! —Dr. Randie Gottlieb has developed an excellent Power Point presentation on the Unity and Oneness of humankind, the pivotal principle of the Bahá'í Faith. It is well-suited for high school, or other public settings. Along with the beautifully animated slides, she has provided supporting talking points, and activities that entertain while enhancing the presentation." **— Henri Cross**

"I just finished viewing your Power Point and will share it with the entire family later tonight. This is a message to be shared again and again. The points made from a humanistic standpoint are wonderful and creatively presented. The points made from a mathematical standpoint (we are all related) are excellent! The message gives me hope. If we could all follow these guidelines...what an amazing world this could be!" **— Beth Shevin**

"Really, really impressive...I would like to show the Unity PowerPoint to the World Citizen's for Peace group in Richland. I attend many of their functions and I think it would be well received." **— Mary Thompson**

"Thank you for sharing your wonderful work. You are performing a great service for humanity in creating, producing and making available at a reasonable cost materials for the enlightenment and betterment of society. May you be able to use your many talents as an educator to help make a better world for us all." **— Dr. Rodney Clarken, Director, School of Education, Northern Michigan University**
