What People Are Saying

“The class was great! The kids really got into pretending they were rocks, plants, etc. Very creative on the animals. I stumped the young ones with my crab impersonation, but the 10 year old nailed it. All have memorized "Greater is God than every great one" and did a credible job learning "Ye are leaves . . ." The Creation Boxes were a great hit. Sasha said that one mother commented that she'd never seen the kids so still and attentive for such a long time. Another replied that she had never seen them all be still and attentive at the same time. I got hugs from all the kids. All in all, it was a very successful afternoon.” **— Mary Thompson, Children's Class Teacher**

"We used God and the Universe to teach summer children's classes to our 7, 8 and 9-year olds. Because your materials were so successful, and the teaching so clearly explained, I am ordering more." **— Susan Bowling, Children's Class Teacher**

“The book is so amazing! And so thorough!.” **— Roya Bauman**

"My grandson tells me that the children's retreat at your home this weekend was the best weekend of his life! I'd be very happy to see every child in the universe take advantage of the curriculum you have developed." **— Dr. Rhett Diessner, Professor of Education**

"Thank you so much for putting together the children's retreat. I loved the classes and I learned a lot of things. I learned more about our connection with God…I had a much more fuller brain when I came out than when I came in." **— Alonso, age 11**

"I loved every minute! Makes me wish I was still young enough to attend." **— Safa Lohrasbi, Youth Volunteer**

“Your curriculum is the best I've seen to teach kids about the Faith. I love it!! They aren't being taught principles, they are investigating, exploring, and owning the principles. I wish I could think of a better way to express my gratitude." **— Dr. Sue Walker, PhD, Middle School Teacher**

“These books are amazing. I personally know many people who are pictured and quoted in the books. The authors have put so much time into researching, experimenting, and practicing the lessons. They include lesson plans, organizational tips and even menu ideas! It is really amazing how much detail they have included. It's basically like children's classes and retreats "in-a-box". I would highly recommend the whole series. I have shown this to my friends and our assembly too. Everyone was very excited. We are working on plans to implement this in our community.” **— Zand K's Mommy**
